PRODUCTS AND ACHIEVEMENTS

AMPHIBIOUS DREDGER AT300-V2

Ultratrex amphibious excavator AT300, Doosan DX340 equipped with 16 meter heavy duty long reach arm, 9 meter side pontoons and 4 lengths of 9 meter spud legs, making them capable of working on water depth up to 5 meter. Spud legs are used for anchoring during dredging work.

Package comes with 0.9M3 bucket and hydraulic dredging pump available to tackle different types of jobs. Particularly, customer invested in this new equipment for copper mining work.

Ultratrex amphibious hydraulic undercarriage built with ultra-low ground pressure best suited for dredging in shallow water. Enhanced stability and higher level of safety are being provided. Anti-corrosion plate SMA 490 and epoxy marine paint with total paint thickness of more than 250 microns used for better rust resistance compare with others on the market.

Not to mention that our UHMPE track plates provide a longer lifespan and minimum maintenance is required. Ultratrex is the first company to assure customer with 10,000 hours of warranty on track plates.

Hence, thank you for the confidence and trust in doing business with us. Ultratrex will continue to support and growth together.
